Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Working directly with my physician,
Womens Health America, Inc. has been providing me
with compounded medication—unique to my needs—
for many years. There is a vital need for this
kind of individualized medication; it can not be
replaced by commercially marketed "one size fits all"
products. Limitations on specialized pharmacies that
serve women across this country would be
counterproductive to FDA goals of a healthier
population.
